# CHOCOLATE CHIP COOKIES

---

Preschool

## HOW TO PLAY

### Setup

- Load the digital number spinner and set the number range to go from 1 to 5. You can adjust the range to go up to 10 after your child can easily handle up to 5.

### Gameplay

- Players take turns to be the chef. First, the chef spins the wheel on the digital number spinner
- With the number drawn, the chef needs to put that number of chocolate chips on the cookie.
- If your child puts the wrong number of chocolate chips on the cookie, help him or her re-count the chips.

## MATH SKILLS

- Number recognition
- Generating numbers (counting out objects)

2+ players

## MATERIALS

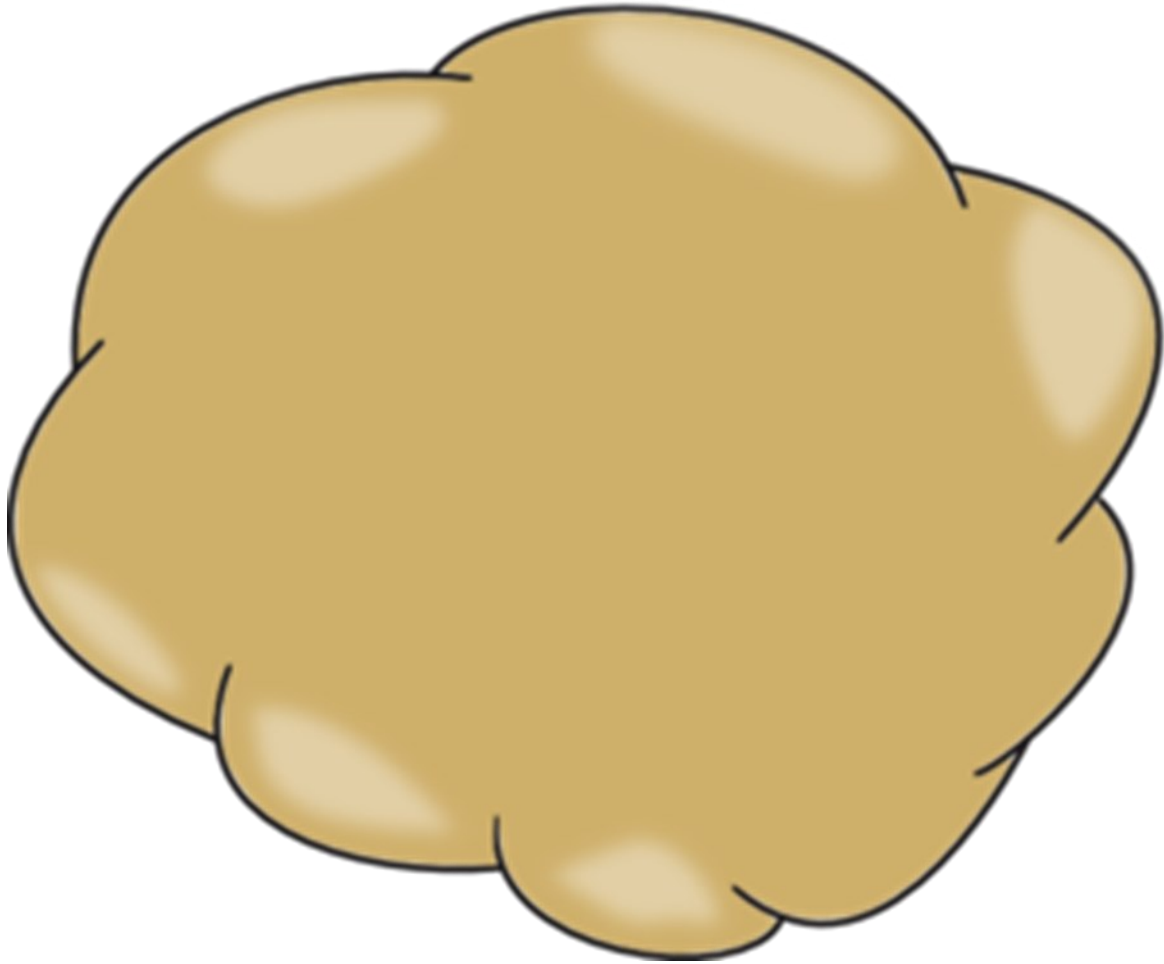

- Digital number spinner (<http://mingmath.com/random>) Cookie (paper cut-out below)
- Chocolate chips (paper cut-outs below)
