
FIXING THE STAIRS

Preschool

HOW TO PLAY

Setup

- Cut out the two sets of stairs included on the following pages

Gameplay

Level I: pictorial stairs

- Players set up a set of pictorial stairs in the order of 1-10, and put aside the other set of stairs.
- Players take turns to take away one piece of the stairs, while the other player looks away.
- The other player then needs to figure out which stair is missing and place the correct stair from their own pile into the missing space.

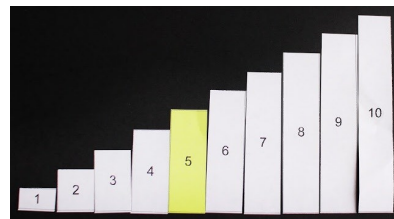

Level II: numerical stairs

- Players set up a set of numerical stairs in the order of 1-10, and put aside the other set of stairs.
- Players take turns to take away one piece of the stairs, while the other player looks away.
- The other player then needs to figure out which stair is missing and place the correct stair from their own pile into the missing space.

MATH SKILLS

- Recite numbers 1-10 in the correct order
- Enumeration (counting objects)
- Number recognition

2+ players

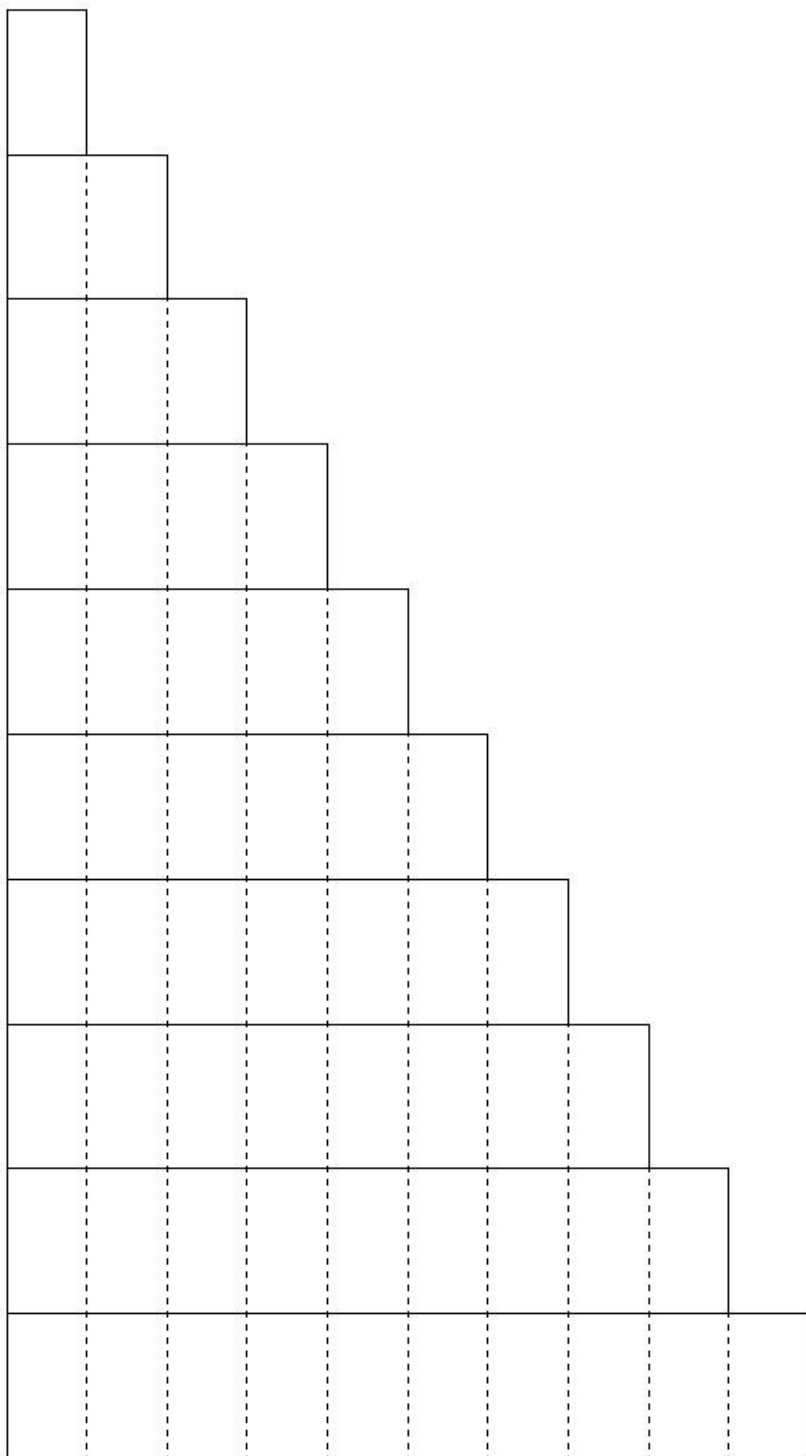

MATERIALS

- Visual Stairs (1-10, 2 sets)
- Numerical stairs (1-10, 2 sets)
